AFFIRMATION CARDS

Six years ago, when we started our online business, we wanted everyone to feel love, peace, happiness & joy from the moment their parcel arrived on the doorstep, so we added an affirmation card in with each package. Over time customers would send us messages with our affirmation cards around the home or share the impact these cards had on them & others.

This then led to the creation of a pack of 12 affirmation cards with handmade pottery card holders & a rough rose quartz crystal.

ESSENTIAL OIL BLENDS

THE EMOTIONAL SERIES

Our journey to creating essential oils came through the desire to first bring health to our family, as we worked with more & more people within the community, we realised that the emotional health in children, teens & adults was much more at the forefront.

From there our emotional essential oil blends were created, although each oil has both physical & emotional properties, for this range we have solely focussed on emotional healing, which we believe also brings health & healing to the physical body.

The Emotional Series Blends are infused with crystals and flowers.
